

The Internet

The teambuilding program explores the dynamic world of the internet, characterized by drama, love, and conflicts. Participants embark on various missions, starting with creating original emojis using facial expressions and practicing swaps with other teams to guess emotions. Next, teams craft clickbait news titles and engage in a viral hugs challenge where they guide blindfolded teammates to hug in a circle. They decode internet slang expressions and hunt trolls, collecting hidden troll symbols around the location. Lastly, teams perform a viral dance routine individually and as a group, concluding the program with a fun activity.
