

Coffee, Tea, We

Introducing our team-building adventure:

Start the day with a selfie and a coffee to set the mood and connect with colleagues. Participate in a mini-workshop with a barista to learn about coffee preparation, tasting, and decoration.

Next, capture a photo of your team's coffees on a tray for a judging challenge. The winning team's photo will become a poster displayed at the company headquarters.

Get creative with branding for your coffee or tea shop, including a name, logo, vision, and values. Craft a café corner to match your branding using natural materials like coffee beans and leaves, and later, bring it to the company headquarters to personalize the cafeteria or relaxation space.

Promote your location in 30 seconds using delightful flavors and treats to invent a new specialty based on coffee, alcohol, chocolate, or ice cream. Then, participate in a tasting session and rate each product to determine the winning team.

Foretell the future through coffee grounds in a creative video activity, followed by a relaxing time to enjoy treats and share stories. Record the most spectacular story and share it with everyone.

Finish off with a cake decorating competition and an optional whipped cream fight for some fun and memorable moments.
