# Boys vs Girls

Program "Boys vs Girls" challenges traditional gender roles by dividing participants into two groups based on gender but then swapping roles. Girls become "Team Boys," and boys become "Team Girls," wearing moustaches and lipstick to get into character. The activities reflect historical gender roles, with Team Boys hunting food items with a bow and arrow while Team Girls cook the "prey." After cooking, both teams participate in a quiz, answering questions tailored to stereotypical male and female preferences, without knowing the point values of their answers. This program aims to promote understanding and empathy between genders in a fun and engaging way.
