

The scenario immerses participants in the dynamic realm of showbiz, where creativity and entertainment take center stage. Starting with a stand-up comedy audition, teams showcase their humour and charisma through joke-telling. Next, they choreograph a dance routine, embracing various styles and signature moves to impress. Then, teams perform circus acts, displaying talents such as juggling, acrobatics, or clowning, all captured on video. Moving on to music, teams compose and perform original songs, incorporating specified words into lyrics across different genres. Additionally, teams craft original superheroes, design their logos, and bring them to life using craft materials. Finally, participants create a scene for a Hollywood action movie featuring their superhero, culminating in a sensational striptease dance to close the showbiz experience, allowing for creative expression and entertainment throughout.
