

“The Book Club” transforms the team experience into a playful literary journey. The day begins with everyone sharing a selfie with their favourite book, then moves into a creative writing mini-workshop where participants craft short stories or poems. Teams brainstorm the concept for their own imaginative book, pitch it, design its cover and create memorable quotes to accompany it. Everything culminates in a humorous launch speech and a celebratory “book release” moment. A warm, creative and collaborative program inspired by the magic of storytelling.
