

Urban Teambuilding

Set in the heart of the city, this urban teambuilding turns urban culture into a playful creative playground. Teams kick off with their favourite city snapshots, then dive into hands-on challenges: designing graffiti panels, building street-fashion outfits through a wardrobe relay, and performing their own street-dance routines. The energy continues with hip-hop songwriting, followed by a gourmet twist where each team invents and cooks a signature burger. The day wraps up with a lively karaoke party celebrating the best moments. A dynamic, high-energy program that blends creativity, teamwork and urban flavour.
