

ROGVAIV

Rooted in the symbolism of color, “ROGVAIV” invites teams to explore creativity, diversity and collaboration through the full spectrum of the rainbow. The experience begins with personal colour choices and a brief chromotherapy session, then teams design their own rainbow mascot and build a creative corner marked by eco-materials. A diversity workshop follows, inspiring each group to craft its own resolution and turn it into a colourful manifesto. The program continues with a nutrition session and the creation of a vibrant rainbow pizza and dessert, ending with a multi-stage treasure hunt where every colour becomes a fun, themed challenge. A lively, meaningful journey celebrating difference and teamwork.
