

Built around the joy and warmth that animals bring into our lives, “Pet Fest” uses this theme to spark connection, humour and teamwork. The program begins with sharing favourite animals, followed by a fast-paced pet quiz and a playful voice-over challenge where teams reinvent animal videos. The day grows more meaningful with a DIY workshop creating toys for shelter animals and an interactive dog-training session that teaches emotional insight and communication. Participants then explore nature through wildlife watching and wrap up by crafting a hand-made animal manifesto and a creative team totem, celebrated through a light-hearted final ritual. A wholesome, fun and collaborative experience inspired by the world of animals.
